Competitors from four countries will run in several categories to test their proprietary pneumobiles powered with compressed air. The all-day-long event will offer something good for each member of the family as, apart from the speedy runs, exciting technical shows and star performers will make this pleasant spring weekend a memorable one.

In addition to teams consisting of engineering students from Hungarian higher education institutions, there will be teams also from the Czech Republic, Poland and Romania to compete for the first place in some of the race categories. Between 4.30 and 6.00 pm in the afternoon preceding the race, competitors will attend a spectacular pageant at Dobó square in downtown Eger.
